

EUROPEAN TECHNOLOGY PLATFORM  
ON SUSTAINABLE MINERAL RESOURCES

# ETP SMR – a European vision on mineral resources

Raw Materials on the Horizon – an ETP SMR Webinar Series  
16 November 2020

Rafał Szkop – President of European Technology Platform on Sustainable Mineral Resources (from the nomination of KGHM Polska Miedź S.A.)

# ETP SMR – What is it?

The European Technology Platform on Sustainable Mineral Resources (ETP SMR) is an association of entities operating in the **Mineral Resources Sector** across the whole value chain

**officially recognised by the  
European Commission**

# MISSION & VISION

The ETP "Sustainable Mineral Resources" will:

reshape a 'traditional' industry from a resource-driven to a knowledge-driven industry;

foster new and better jobs, including SMEs and New Member States;

supply and secure the mineral resources needed by the EU economy, while minimising the related environmental footprint (decoupling);

strengthen world leadership and competitiveness in minerals sector technology;

add value for customers and society.

# ETP SMR – What it does

**Focuses on creating sustainable mineral resources potential in Europe, including access to and supply of essential and critical raw materials**

# Finding sustainability throughout the raw materials value chain

Monday 16th November 2020 | 11:30–13:00

Time		Title	Speaker
11:30	11:35	Welcome address	Rafał Szkop (KGHM) – ETP SMR President, Chair Corina Hebestreit (Euromines) – Moderator
11:35	11:50	KGHM Polska Miedź S.A. towards European Green Deal	Radoslaw Żydok KGHM Polska Miedź S.A.
11:50	12:05	Sustainable Management in Extractives – SUMEX Project	Michael Tost Montanuniversität Leoben
12:05	12:20	Traceability for Sustainable Metals and Minerals – TraceMet Project	Sebastiaan Stiller IVL Swedish Environmental Research Institute
12:20	12:35	Processing solutions for Rare Earth Elements	Erik Larsen Norwegian University of Science and Technology
12:35	13:00	Panel discussion with speakers and Q&A from audience	
13:00		FIN
