
ETP SMR Stakeholder Workshop

A Strategic Research & Innovation Agenda for EU Raw Materials Security

28th March 2023

Mona Lisa Room - Avenue des Arts 56, 1000 Brussels, Belgium

PROGRAMME	
Time	Session
12:45 - 13:45	<i>Lunch & networking</i>
13:45 - 13:55	Welcome & opening statements Ms Katarina Nilsson, <i>ETP SMR President and Director of Research & Innovation, Svemin</i> Ms Madalina Ivanica, <i>Deputy Head of Unit - Energy Intensive Industries, Raw Materials, Hydrogen, DG GROW, European Commission (TBC)</i>
13:55 - 14:35	ETP SMR SRIA 2023 - Introductory chapter Dr Wolfgang Reimer, <i>ETP SMR Vice-President and Managing Director, GKZ Freiberg</i> <i>Followed by moderated open discussion on the introductory chapter</i>
14:35 - 15:20	Breakout session 1 <i>Participants to split into two groups to discuss the most important topics related to EU raw materials security they feel need to be addressed in current and future research & innovation programmes:</i> Group 1 - Exploration & extraction Group 2 - Processing & recycling

15:20 - 15:50	Coffee break
15:50 - 16:35	<p>Breakout session 2</p> <p><i>Participants to split into two groups to discuss the most important topics related to EU raw materials security they feel need to be addressed in current and future research & innovation programmes:</i></p> <p>Group 1 - Environmental aspects Group 2 - Policy & society</p>
16:35 - 16:55	<p>Summary of breakout sessions</p> <p><i>Moderated discussion on key points raised</i></p>
16:55 - 17:00	<p>Closing remarks</p> <p>Ms Katarina Nilsson, <i>ETP SMR President and Director of Research & Innovation, Svemin</i></p>
17:00 - 18:00	Networking cocktail

Join our interactive Stakeholder Workshop and contribute directly to discussions on the critical research and innovation needs now and in the near future, related to EU raw materials security of supply. Deliberate over the latest updates to the ETP SMR's Strategic Research & Innovation Agenda (SRIA), designed to help identify the gaps in research programming across Europe.

This will be a hybrid event, so online participation is possible, but we would strongly encourage you all to attend in person if you can, or to send a representative, in order to maximise the interactions and networking opportunities with the wider raw materials research and innovation stakeholder community.

Please [register here](#) by 21 March 2023 for either in person attendance or online attendance.
