

**European Technology Platform
on Sustainable Mineral Resources**

Become a Member and Have a Voice in the Future of Europe's Raw Materials Sector

About Us: Innovation for a Sustainable Mineral Supply

The European Technology Platform* on Sustainable Mineral Resources (**ETP SMR**) is a leading organization dedicated to ensuring a sustainable supply of mineral resources through groundbreaking research, development, and innovation. We are at the forefront of defining Europe's mineral future.

*European Technology Platforms (ETPs) are sector specific stakeholder fora recognized by the European Commission as key actors in driving innovation, knowledge transfer and European competitiveness in their sector. The ETP SMR received official recognition as an ETP in 2008.

Our Mission

To develop long-term European Minerals Industries research and innovation agendas and roadmaps for action at both EU and national levels, fostering a resilient and sustainable raw materials sector.

Our Key Objectives

- Promote cutting-edge research, development, and innovation within the mineral resources sector.
- Define strategic roadmaps for impactful action across Europe.
- Strengthen the competitiveness and sustainability of European mining and mineral industries.

"Our priorities for the next two years include working for an expanded budget in the next MFF and funding for targeted master's programs. Joining ETP SMR gives you the opportunity to have your voice heard while expanding your network."

Susanne Gylesjö, Svemin
ETP SMR President from 2026

ETP SMR: An Active Hub for Collaboration and Progress

Events & Workshops

We organize engaging pitching events to foster international collaboration in raw materials and thematic workshops vital to shape Europe's raw materials future.

Key Publications

We produce various influential documents such as the Strategic Research and Innovation Agenda (SRIA), Strategic Implementation Plan (SIP), and Position Papers that guide raw materials research and innovation policies.

Collaborative Projects & Partnerships

Our network offers ETP SMR members the opportunity to seek out specific expertise and develop collaborative research and innovation projects, whether addressing calls within the European Union's research programmes or through bilateral projects of mutual interest.

We are closely aligned with the ERA-MIN research programme and will actively contribute to its successor, the **Raw Materials Partnership for the Green and Digital Transition**, an EU co-funded multinational initiative launching in 2026.

Why Join ETP SMR? To Access Unique Benefits:

- Take the opportunity to contribute to the Strategic Research and Innovation Agenda and Strategic Implementation Plan, helping to define research priorities and **influence EU funding calls and partnerships**.
- Gain significant **recognition with key decision-makers**, including the European Commission (DG GROW).
- Showcase your expertise at strategic events like **EU Raw Materials Week** and **IndTech**.
- Gain preferential access to our **exclusive network**, fostering collaboration at a European and global level.
- Have a voice in Brussels! Make use of your membership to contribute to **impactful Position Papers** that shape the industry's narrative.

Membership Categories

Full Member

Must be established in the EU or the European Free Trade Association (EFTA).

Associate Member

Can be established in any country worldwide.

Note: Associate Members do not have voting rights.

How to Join

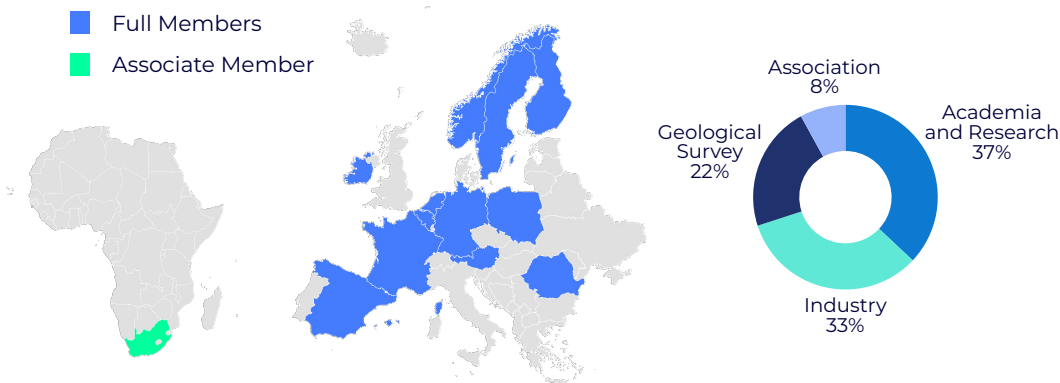

Scan the QR code or contact our Secretariat directly at **info@eurogeosurveys.org** to request the membership package and application letter guidelines. Once approved, your membership will be activated upon payment of the annual fee.

The Annual Membership Fee for 2026 is €2,000

Be Part of a Network That Covers the Entire Value Chain

What our Members Say

*"Membership provides access to a broad network of industry leaders, researchers, and policymakers, keeping **Euromines** at the forefront of technological and sustainability advancements."*

*"For the **Geological Survey of Sweden**, it is an important hub to influence the research agenda and increase synergy between all of us that have the same goal – to secure and provide raw materials within the EU!"*

*"As part of ETP SMR, **RHI Magnesita** benefits from a holistic, Europe-wide perspective on the mineral resources industry - from exploration to recycling."*

*"The Platform played an important role in the introduction of the **Łukasiewicz IMN** institute onto the European scene."*

*"Membership of ETP SMR is a key entry point for **EuroGeoSurveys** to connect with the broader raw materials R&I community in Europe."*

We look forward to welcoming you to our community!
